21	W6	F1	59	70	10	100	60	white pine	immature	N		20-29 years	0	
Treatment Limiting Factors: Inadequate volume due to low stocking/small diameter/etc.														
comnts Fmd : There is not enough volume to cut. It seems the aspen was cut out 20 years ago but not much grew back. This is a very diverse stand including red maple, cherry, sugar maple, and the pines which are numerous. This should keep being managed the way it is with the diversity that is present.
