Stand	Cover Type-Dnsty	Under Story-Stkng Level	Age	A c r e s	avg. D			Mgt Obj	Condition	Silv. Criteria Met?	Method Cut	Trtmt. Period	Harvest Priority	Cultural Need
					B H	Tot. BA	Site Indx							
3	A3	A2	24	17	3	0	53	aspen (upland)	immature	N		50-59 years	0	
comnts Fmd : (HILLY - GREAT VIEW. A2-A3. Old comment.) The stand is adjacent to private property. 08/15/2005 mm														
6	A3	O2	53	17	3	0	52	aspen (upland)	immature	N		50-59 years	0	
comnts Fmd : (A3-O2-MR2. Old comment.) The stand is located along Mt. Tom Road. The stand is adjacent to "The Pine Barrens Frost Pocket." 08/15/2005 mm														
8	O6	M2	30	99	8	100	53	oak	immature	Y	shelterwood-seed	within 0-9 years	2	
comnts Fmd : (THIN OAK AND PINE, CC PATCHES OF ASPEN. ASPEN PATCHES ARE STAND 40. Old comment.) Remove red maple and aspen, and mark oak. Stand is hilly. Regeneration will be a mix of red maple, aspen and oak. The stand is along Esch Road and adjacent to private property. The stand is adjacent to Compartment 029, "The Pine Barrens Frost Pocket." 08/15/2005 mm														
9	R9	N2	7	143	12	90	55	red pine	immature	Y		10-19 years	0	
<u>Treatment Limiting Factors:</u> Recreational site														
comnts Fmd : (CUT ASPEN, RED MAPLE AND DYING OAK. SCARIFY IN GOOD SEED YEAR. Old comment.) The stand is used for seasonal camping (hunting, etc.) The stand is alt the intersection of Esch Road and Pennsylvania Crossing Road. The stand is adjacent to Compartment 029, "The Pine Barrens Frost Pocket." Maintain the stand in its current condition. 06/06/2005 mm														
11	R6	M1	3	79	10	90	60	red pine	immature	Y		10-19 years	0	
<u>Treatment Limiting Factors:</u> Scenic values/visual values														
comnts Fmd : The stand is on top of a hill adjacent to a cabin on private property. The stand can be seen from Mt. Tom Road. Maintain stand in current condition. 06/06/2005 mm														
12	A6	M2	54	57	9	80	50	aspen (upland)	mature	Y	final harvest	within 0-9 years	2	
comnts Fmd : Final harvest. Red maple and northern pin oak is of very poor quality. Red maple and northern pin oak will regenerate naturally and the aspen should expand into the red maple/northern pin oak areas of the stand. The stand is adjacent to "The Pine Barrens Frost Pocket." The stand is adjacent of private property. 06/06/2005 mm														
13	A5	A2	8	37	8	60	48	aspen (upland)	mature	N	final harvest	within 0-9 years	2	
comnts Fmd : Final harvest. The stand will regenerate naturally to aspen. The stand is along Mt. Tom Road. The stand is on an east facing slope. 06/06/2005 mm														
18	A5	M2	9	57	8	60	47	aspen (upland)	mature	Y	final harvest	within 0-9 years	2	
comnts Fmd : (MANAGE WITH STAND TO NORTH. Old comment.) The stand can not be included with the stand to the north. Timber sale # 72-056-04-01 (Frost Pocket Aspen) is just to the north of this stand. This sale was cut by G & G Forest Products in 2005. The stand is adjacent to Compartment 029, "The Pine Barrens Frost Pocket." This stand will regenerate naturally to aspen and oak. 06/06/2005 mm														
19	X0	X0	4	18	0	0		other non-stocked or non-forest or non-productive	nonstocked	N		not scheduled	0	
comnts Fmd : (STATE BURIAL PIT FOR PBB TAINTED CATTLE. Old comment.) This stand is the location of the burial pit for livestock that were contaminated with polybrominated biphenyl (PBB). The pit was created in 1987. It is a clay sealed pit and has monitor wells associated with it. No activity should occur on or near the pit. The stand is adjacent to Compartment 029, "The Pine Barrens Frost Pocket." 03/04/05 mm According to David Lindsay, DEQ, Gaylord there are 13 monitoring wells. There northing and easting coordinates are: MW-7S 304.22 192.99; MW-7D 294.61 184.26; RL-9R292.39 644.73; RL-8R 159.25698.20; OB-4 626.72 910.90; OB-5 78.00 1175.58; M1S 349.791124.39; M-1D344.87 1132.75; M-2 929.501623.61; M-3 516.05 1660.47; M-4 274.48 1648.87; M-5 400.54 799.06; M-6 120.40 825.68 09/09/2005 mm														
20	A5	M2	26	57	8	60	47	aspen (upland)	mature	Y	final harvest	within 0-9 years	2	
comnts Fmd : (HOLD 10 FOR DIVERSITY. Old comment.) Final harvest. This sand is along Pennsylvania Crossing Road. The stand is adjacent to Compartment 029, "The Pine Barrens Frost Pocket." The stand will naturally regenerate to aspen. 06/06/2005 mm

23	R8	M1	12	100	12	70	50	red pine	immature	Y		10-19 years	0	
<u>Treatment Limiting Factors:</u> Scenic values/visual values														
comnts Fmd : (ASPEN, MAPLE, AND RED PINE PULP REMOVED IN 1997. Old comment.) Timber sale # 72-002-97-01 (Snake Crossing) cut in 1998 by Stagg and Sons Forest Products. Jack pine, aspen, red maple, red pine smaller than eight inches, and those red pine marked with orange paint were cut.. There was a residual of 42 square feet of red pine and 24 square feet of oak. The stand is along Pennsylvania Crossing Road. The stand is located on a small hill. Maintain stand in its current condition. Consider treatment in ten years. 08/15/2005 mm														
24	A3	M1	67	17	3	0	55	aspen (upland)	immature	N		30-39 years	0	
comnts Fmd : (CLOSE ROAD IN NORTH (OFF SNAKE BRANCH). WAS 40% BIRCH. Old comment.) Only a small amount of birch is found in the stand. ORV trail traverses through the stand. The stand is loacted along the west end of Esch Road. The road is very steep and easiliy erodable for a short distance at the west end of the road.. The stand is along Snake Branch Road. Guard rail has been set in place just west of the intersection of Snake Branch Road and Esch Road. The guard rail is being breached by illegal ORV use. The stand is adjacent to private property. 08/15/2005 mm														
25	M6	M2	57		8	70	55	northern hardwood	unevenaged	N		10-19 years	0	
comnts Fmd : (Thinned in 2000/2001 under contract #72-028-98-01, Esch Road Thinning. Old comment.) Residual was 70 square feet outside of regeneration holes. The stand is along Esch Road. The stand is adjacent to private property. Maintain stand is current condition. Consider treatment in ten years. 06/06/2005 mm														
27	W6	A2	26	49	7	70	60	white pine	immature	N		20-29 years	0	
comnts Fmd : Let stand continue to grow. Consider possible treatment in twenty years. 08/15/2005 mm														
28	M9	M1	12	87	12	120	58	northern hardwood	mature	Y		10-19 years	0	
<u>Treatment Limiting Factors:</u> Delayed treatment for age/size class diversity Too steep														
comnts Fmd : The stands is on top of a hill. The terrain may create some difficulty while conducting any treatment.. 06/06/2005 mm														
29	R5	N 2	127	60	8	70	59	red pine	immature	N		10-19 years	0	
comnts Fmd : (CUT ALL BUT RED AND WHITE PINE AND OAK. STAND HARVESTED 1999 SALE #0389801. Old comment.) Timber sale # 72-038-98-01 (Double Corner Pine). Cut by Stagg and Sons Forest Products in 1999. No red pine, white pine or cut was cut. Residual basal area was 66 square feet. The snowmobile trail traverses through the stand. The ORV trail traverses through the stand. A gas well site (stand 411) is located within the stand. The stand is adjacent to private property. Maintain stand in current condition. Consider treatment in ten years. 06/06/2006 mm														
30	A3	A3	67	15	1	0	46	aspen (upland)	immature	N		40-49 years	0	
comnts Fmd : (SOME PINE SEEDING IN. CLOSE ROADS. ORV DAMAGE. Old comment.) Illegal ORV use in area. Numerous illegal trails throughout the stand. Stand 55 (the stand is completely contained within stand 30) is an illegal "scramble area" for ORV's. ORV trail traverses through the northwest corner of the stand. Some erosion is occuring along the illegal ORV trails. Illegal ORV use and/or erosion may be impinging on the private property to the south. Guard rail has been set in place near the northwest corner of the stand. The guard rail is being breached by illegal ORV use. 06/06/2005 mm

comnts Fmd : The stand was cut with compartment 014, stand 026 just to the east of this stand in 1989. Mt. Tom Road traverses west of the section line. The stand is the area between Mt. Tom Road and the section line. 06/06/2005 mm														
69	A3	A3	18	6	2	0	60	aspen (upland)	immature	N		50-59 years	0	
comnts Fmd : This stand was part of timber sale 72-044-97-01 (Centerline Road Thinning). The sale was held by Georgia-Pacific and cut in 1998/1999. No red pine or oak was cut. This stand was separated out from the other part of the original stand (stand 42) because there are only a few very scattered red pine on the very western edge of the stand (less than 10 square feet). Site index was transferred from adjacent stand 42. 08/15/2005 mm														
401	G0	G0	3					grass	nonstocked	N		within 0-9 years	0	opening maintenance
comnts Fmd : Maintained wildlife opening. 06/01/2005 mm														
402	G0	G0	4					grass	nonstocked	N		within 0-9 years	0	opening maintenance
