

Level 4 Cover Type	Size Density	Acres	Stand Age	BA Range	General Comments:
6120 - Lowland Cedar	High Density Log	204.2	115	111-140	Looks like less deciduous component to the west Only saw the east side
6118 - Lowland Deciduous with Cedar	Medium Density Pole	44.7	85		
4119 - Mixed Northern Hardwoods	High Density Log	44.1	85	81-110	On the upland / lowland transition. Has pockets of lowland heavier to black ash. Very interesting regen dynamics with red oak coming into canopy gaps. No canopy red oaks were seen.
6115 - Lowland Ash	High Density Pole	24.1	85		Nearly solid black ash. Scattered log trees that are very old and falling apart..
6119 - Mixed Lowland Deciduous Forest	Medium Density Pole	12.5	85		Heavy browse on the black ash regeneration
4319 - Mixed Upland Forest	High Density Log	12.0	100		
6115 - Lowland Ash	Low Density Sapling	7.7	9		Recently cut stand. Heavy browse that is not coming in well. Trail along gas line provides access.
6119 - Mixed Lowland Deciduous Forest	High Density Log	28.3	100		
6115 - Lowland Ash	High Density Pole	14.8	85		Long edge stand split from pre-inventory #22
4131 - Aspen, Oak	High Density Log	12.0	68		Has some high risk oak and mature bigtooth aspen with some wet spots and a drain running down center. Would mark mast trees to leave and manage for aspen. Could combine with stand to the south. Along sno-trail. Would be a low priority.
4199 - Other Mixed Upland Deciduous	High Density Log	19.4	85		Hight risk oak and multiple aged aspen with some wet pockets. Would mark oak and birch to leave and do a summer cut due to snowmobile trail. Possible to get some birch regen here, but aspen/oak would be the management objective. Hummocky in spots. Low priority.
4133 - Aspen, Mixed Pine	Medium Density Pole	88.6	50		Two-aged aspen on the upland/lowland transition. Stand has alot of variability. Open grown with alder to east. Open grown with leatherleaf to the middle and hummocky aspen/ rm to the west. Pockets of pine and tamarack to the south.
6115 - Lowland Ash	Low Density Pole	151.5	100		
4199 - Other Mixed Upland Deciduous	High Density Log	8.6	85	81-110	Tiny stand along Old 27 with some very old aspen. Has a pocket of upland jack pine on the west edge.
4130 - Aspen	High Density Sapling	37.6	6		Some oak poles and mast trees left within. Also some birch was left along the bog to the west.

## FORESTED STAND LISTING REPORT

Compartment: 074

Date 08/28/2009

Inventory Method: IFMAP

Page 2 of 2

	Level 4 Cover Type	Size Density	Acres	Stand Age	BA Range	General Comments:
37	42220 - Natural Jack Pine	High Density Pole	46.7	54		1st core = 49 rings // 2nd core = 54 rings. Very uniform for a natural stand.
38	4199 - Other Mixed Upland Deciduous	High Density Log	30.1	68	81-110	Has a good component of healthy oak and birch poles and aspen of a couple age classes. Some hummocky spots toward the center.
39	6115 - Lowland Ash	High Density Log	67.5	100		True E9. Some very big black ash in a couple spots.
41	6115 - Lowland Ash	High Density Pole	6.9	98		
42	6115 - Lowland Ash	Medium Density Pole	10.6	100		
47	6117 - Lowland Deciduous, Mixed Coniferous	Medium Density Pole	22.4	55		

Stand	Cover Type	Acres	Gen Cmts:
2	621 - Floating Aquatic	85.0	
3	50 - Water	24.7	
4	622 - Lowland Shrub	28.2	
5	623 - Emergent Wetland	111.4	Scattered cattail pockets with sedge areas and willow mounds
10	6220 - Alder/willow	27.7	
12	629 - Mixed non-forested wetland	40.9	
14	629 - Mixed non-forested wetland	103.7	
15	621 - Floating Aquatic	25.6	
16	50 - Water	60.6	
18	623 - Emergent Wetland	259.2	Has some fairly large cattail pockets
19	621 - Floating Aquatic	181.5	
20	621 - Floating Aquatic	13.4	
23	629 - Mixed non-forested wetland	4.3	
24	6239 - Mixed Emergent Wetland	85.3	
25	6233 - Wet Meadow	10.2	
29	6224 - Treed Bog	93.0	
30	629 - Mixed non-forested wetland	4.5	Scattered aspen and jack pine with leatherleaf on transition to upland.
31	6225 - Bog	10.5	

Stand	Cover Type	Acres	Gen Cmts:
33	629 - Mixed non-forested wetland	2.9	
34	629 - Mixed non-forested wetland	43.0	
35	310 - Herbaceous Openland	3.3	
40	622 - Lowland Shrub	71.5	
43	6224 - Treed Bog	9.5	
44	623 - Emergent Wetland	9.6	
45	629 - Mixed non-forested wetland	4.4	
46	629 - Mixed non-forested wetland	10.7	Mix of lowland brush and cattails with dead ash overstory.
48	623 - Emergent Wetland	6.6	
49	629 - Mixed non-forested wetland	11.2	
50	623 - Emergent Wetland	96.2
