

	Level 4 Cover Type	Size Density	Acres	Stand Age	BA Range	General Comments:
2	4140 - Other Upland Deciduous	High Density Pole	17.5	88		Nice stand of timber, some rolling terrain. Stand contains some V0. Adjacent compartment to the west has a clearcut prescribed across the road. Hold stand for 10yrs for age class diversity.
4	6120 - Lowland Cedar	High Density Pole	3.8	138		Decent cedar, good stocking. Leave for thermal cover. Maybe try cedar shelterwood next YOE.
9	6120 - Lowland Cedar	High Density Pole	8.5	138		Decent cedar, fairly good stocking. Leave for thermal cover. Maybe try to shelterwood next YOE.
10	4130 - Aspen	Low Density Sapling	6.3	5		Not regenerating very well. quite a bit of browse.
14	4319 - Mixed Upland Forest	Medium Density	82.4	6		Stand not regenerating real well. Quite a bit of browse.
17	4140 - Other Upland Deciduous	High Density Pole	4.9	76		Stand is a ridge that drops off to the cedar swamp to the south. In operable but provides some age class diveristy in the compartment.
18	4134 - Aspen, Spruce/Fir	High Density Sapling	15.1	15		Stand about 15' tall, some hypoxylum
19	6120 - Lowland Cedar	Medium Density Pole	15.7	105		
22	4134 - Aspen, Spruce/Fir	High Density Sapling	35.4	15		Stand contains some V0s. Areas harvested around V0 didn't regenerate that well. Stand about 20' tall, some hypoxylum cankers.
25	4134 - Aspen, Spruce/Fir	High Density Sapling	52.3	21		Stand about 20' tall. Some cankers on aspen. Stand contains several vernal ponds.
29	4140 - Other Upland Deciduous	High Density Pole	5.6	76		Decent quality timber.
30	4319 - Mixed Upland Forest	Low Density Pole	15.8	37		Hilly terrain. Stand is a filled in grassy opening. Stand is half saplings and half pole timber.
31	4134 - Aspen, Spruce/Fir	High Density Sapling	26.1	6		Stocking is more sparse on the east end of the stand. Hilly terrain a few V0 in the area.
32	4319 - Mixed Upland Forest	Medium Density Pole	13.1	46		Mixed stand. Lots of pockets of saplings with mixed pole timber.
33	6122 - Black Spruce	Medium Density	79.6	55		Treed bog
35	4140 - Other Upland Deciduous	High Density Pole	22.8	89		Big hill may be inoperable however, they already cut the portions of it to the north.

	Level 4 Cover Type	Size Density	Acres	Stand Age	BA Range	General Comments:
36	42110 - Planted Red Pine	High Density Pole	26.3	47	81-110	Thinned in 2006 'County Line Pine' Hilly terrain. Trees have plenty of room to grow. About 40' tall.
39	4130 - Aspen	High Density Sapling	13.1	15		Stand is about 25' tall with thick regen.
41	4130 - Aspen	High Density Sapling	9.8	15		Stand about 20' tall, thick regen
42	4134 - Aspen, Spruce/Fir	Medium Density Pole	16.7	37		Grassy opening filled in. Clumps of Aspen (poor quality with hypoxylum). Mix of saplings and pole timber. Hilly terrain.
43	429 - Mixed Upland Conifers	High Density Pole	58.7	70		Steep along the pond and down to the creek in the south end. Makes nice buffer. Southern end of stand has many small drainages into the Millecoquins.
44	4112 - Maple, Beech, Cherry Association	High Density Sapling	14.5	13		Stand about 15' tall. Nice mix of species, thick regen
45	6120 - Lowland Cedar	Medium Density Pole	30.8	140		Stand has Millecoquin Cr. along with other drainages running through the stand. Some ridges of white pine and spruce in stand.
48	4112 - Maple, Beech, Cherry Association	High Density Log	892.7	95	81-110	Large Hwd stand. East part was recently thinned in 2006 Headwaters hardwood along with the northwest portion of the stand in 'Canada Lakes Ski Trail Hwd'. Central portion of stand is under contract with 'Millecoquins Maple'. There is about 40 acres with BA's around 110 that would like to prescribe this YOE.
50	4133 - Aspen, Mixed Pine	High Density Sapling	27.6	27		Stand has some pole sized aspen, another 10-20 yrs and stand will be an A6. Aspen 30-40' tall.
51	4130 - Aspen	High Density Sapling	15.2	14		Stand has thick regen and is about 20' tall.
52	4319 - Mixed Upland Forest	Low Density Sapling	11.7	36		Grassy opening filling in. Ski trail runs through south edge of stand. Some scattered pole timber.
54	4112 - Maple, Beech, Cherry Association	High Density Pole	9.7	87	111-140	Stand has a lot of BBD.
56	4136 - Aspen, Mixed Conifer	High Density Sapling	148.6	24		Stand about 30' tall with thick stocking. Some hwd regen along the edges. Scattered mature white pine left from previous harvest mostly in the southeast corner of stand.
