

East Branch Of Fox River At M-77 Bridge

Fish Species

Brook Trout; Brown Trout

Species Description

This section of river contains fish in a range of sizes from three to 20 inches in total length (both brook and brown trout).

Geographic Coordinates

Lat:46.40439 / Long:-85.948078

Noteworthy

The Fox River is noted for its wild brook trout fishery. This location contains deep holes, undercut banks and woody debris - all of which are characteristics of good trout water.

Fishing Regulations

This is a Type 1 trout stream. Please review the Inland Trout and Salmon Regulations in the current Michigan Fishing Guide.

Directions to Site

From Seney, travel north 4.1 miles on M-77 to reach the M-77 Bridge. You can access the river by using the right-of-way along the road and bridge.
