

Sorry, but this facility in the Hunting Access Program (HAP) has just enrolled or changing information; details are coming but are not yet available.

- The document/map intended at this location for this farm facility is not yet ready or temporarily unavailable, but the file location has been made as part of setting up the information.

- This document will be replaced with map and details to help ensure you as a potential user / hunter, get updated information. Please return for updated information.

- We appreciate your patience as we develop new and better information. Thank you.

Other resources to assist you:

The Michigan DNR website – at <http://www.michigan.gov/dnr> - already provides a wide variety of detailed information: Details include specifics on State land areas, habitat management, information on game and nongame species, and more.

Please review these other resources for information while this document is being developed.

If you have questions, use the online DNR resources, contact a DNR Customer Service Center using the “contact us” link off the DNR web page at www.michigan.gov/dnr or find contact information and phone numbers from within your local phone book.

The **Hunting Access Program (HAP)** section of the DNR website contains a variety of information, including an [overview map of point locations of HAP lands](http://www.michigan.gov/documents/dnr/HAP_Locations_364373_7.pdf) within the State (at http://www.michigan.gov/documents/dnr/HAP_Locations_364373_7.pdf).

There are already detailed [county-wide map products](http://www.michigan.gov/dnr/0,1607,7-153-10371_14793_52946---,00.html) depicting HAP lands, provided at http://www.michigan.gov/dnr/0,1607,7-153-10371_14793_52946---,00.html.

On these products, you should see a red star symbol representing HAP lands, so you can find the HAP cooperator areas already on these products.

A new interactive online mapping tool exists: Have you tried **Mi-HUNT**?

Mi-HUNT is the interactive online mapping tool created specifically to help Michigan hunters and outdoor enthusiasts find land details, use DNR resource information to review areas across Michigan, see State public hunting / trapping lands, cooperating private landowner lands like the Hunter Access Program or Commercial Forest lands, and much more. Within this application, there is an option to display HAP lands as a red star symbol representing those cooperator areas, so you can find the HAP areas already in **Mi-HUNT**. Why not give **Mi-HUNT** a try?
