

## Historical Marker - S167 - Porcupine Mountains (Marker ID#:S167)

### Front - Title/Description

#### ***Porcupine Mountains***

From Lake Superior the main range of mountains looks like a crouching porcupine, thus their name. Machinery, rock dumps, and old adits are ghostly reminders of forty mining ventures in the years from 1846 to 1928, none of which succeeded. Some logging took place around 1916. As late as 1930 a few trappers eked out a living here. Finally in 1945 the area was made a state park to preserve its virgin splendor.

#### ***Significant Date:***

Two World Wars and the Depression (1915-1945)

***Registry Year:*** 1957    ***Erected Date:*** 1958

### Back - Title/Description

#### **Marker Location**
